Art Unit: 2633

1. Claims 1-3, 5, 9-12, 18-20, 23-25, 51-52, 59-60 and 66 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 4, 7-8, 13-17, 21, 26-31, 53-58 and 61-65, directed to the species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 32-50, directed to other species remain withdrawn from consideration since they do not contain the allowable features of the other claims depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. Although claims 32 and 41 are drawn to a non-elected species, they (and their dependents) would be allowable if they were amended to include all the amendments that made the other claims allowable (i.e. "means for deriving the CTR from a Coordinated Universal Time standard" and "wherein the super cycle is one of a single UTC seconds a predefined integer of UTC seconds and a fraction of one UTC second").
